UConn attracts

## Economic Output

UConn has a \$5.1 billion impact on statewide economic output, generated directly from UConn (\$3 billion) and through spillover effects on other affected industries (\$839 million) and households (\$1.3 billion). For every dollar spent by UConn, 71 cents in economic output is generated elsewhere in the Connecticut economy, with 28 cents from businesses and 43 cents from households. Moreover, the statewide economic output traced to UConn amounts to approximately \$1,408 per Connecticut resident.

## Value Added to the Economy

The best measure of UConn's contribution to gross state product is the "value added" measure. Value added refers to the difference between the value of output and the cost of raw materials. UConn added \$3.0 billion in value to the Connecticut economy, leaving \$413 million in the hands of businesses and \$780 million in the hands of households. For every dollar UConn spends, 68 cents of value is added to the state economy (with 24 cents going to business owners, and 44 cents to households).

## Economic Impact of UConn's Research

For every research dollar that UConn attracts in externally sponsored research and spends within the state, 80 cents in economic output is generated elsewhere in the state economy.

UConn's research generates jobs and earnings in the Connecticut economy and supported 1,203 jobs, which includes grant-funded faculty, post-doctoral research staff ("postdocs"), graduate students, and other staff. Added impacts on other businesses (indirect impacts) and other supported jobs (induced impacts), resulted in a total impact of 2,378 jobs throughout the state.
